
ImageCAS-X — request for the 160 paired re-annotations (inter-observer subset)

Kit Mills Bransby <kimbr@dtu.dk>

8 October 2026 at 15:32

To: Mohd Zulhilmi <Mohd.Zulhilmi@monash.edu>

Hi Zulhilmi,

As we made all the model weights publicly available, you can generate this information yourself.

Simply use the trained models to predict on the test set scans to get a probability distributions of predictions for the test set.
